

# BASSANO NEWS

## CANALIEF GROUND BREAKING

*October 4, 2019*

Today marks an important day for the Town of Bassano as we have the pleasure of formally welcoming Canalief to our community. Our economic partners are constructing their first phase, a 67,000 square foot craft cannabis production facility. Investment of this magnitude is cause for celebration.

We encourage the integration of Canalief into the surrounding landscape and we focus on the growth and opportunity this new industry brings to Bassano and the region. The legalization of the cannabis industry helps to diversify our local economy and we know that a vibrant business sector leads to a vibrant community through job creation, wealth distribution, and prosperity.

On behalf of the Town of Bassano welcome Devon, Adam and the entire Canalief team. Your investment here reaffirms that we are on the right track to becoming the most attractive and affordable urban community under 2,500 in Alberta where industry leaders want to invest, where tourists come for a new experience, and where people choose to live, work and play.

We wish you all the success now and into the future and we are confident that you made the right choice to invest in Bassano.

Congratulations and welcome – we look forward to growing together!
